

Bio-Live Breathease: Living Health in a Bottle

This unique combination of beneficial microbes, herbs and minerals is formulated specifically to support healthy airways by aiding the function of the lungs and respiratory system.

Benefits

Bio-Live Breathease contains a variety of well-researched ingredients that are known to relieve symptoms of coughs, bronchitis, respiratory tract infections and asthma. The friendly bacteria, as well as boosting diversity in the gut and therefore the immune system, add a powerful ability to distribute the herbs. It is also: 100% natural and chemical free, a powerful antioxidant and gluten, dairy and sugar free.

Customers report a variety of benefits:

- ⦿ easing pain and tightness in the lungs and respiratory system
- ⦿ helping the thinning, loosening and expulsion of excess mucus
- ⦿ alleviating asthma symptoms
- ⦿ boosting the immune system
- ⦿ healthy regular digestive system
- ⦿ reduced stress and improved sense of wellbeing

Our fermented liquid supplement contains:

- ⦿ living beneficial microbes – never freeze dried
- ⦿ minerals and herbs, molasses (used up in fermentation)
- ⦿ no genetically modified microorganisms
- ⦿ no preservatives and no animal products
- ⦿ no wheat, soy or dairy

How does it work?

Beneficial microbes help improve health by positively affecting the body's ability to absorb nutrients and reduce the negative effects of toxins and pathogens. Bio-Live Breathease aims to aid the lungs and respiratory system, using herbs and minerals known to support healthy airways. The friendly microbes help to deliver the Breathease ingredients to wherever in the body they are most needed, whether that is in the gut, the lungs, oral cavity or throat. The gut is the largest immunity organ in the human body, so as we look after it, it looks after us.

<p>Bio-Live Breathease</p> <p>Over 5 billion probiotic microbes per serving</p>	<p>Take 10-20ml daily preferably before breakfast.</p> <p>Shelf life 6 months unopened.</p> <p>Once opened, use within 2 months.</p> <p>Flakes and sediment are a sign of quality.</p>	<p>Storage:</p> <p>Do NOT refrigerate. Keep out of direct sunlight. Store in cool, dark conditions.</p>
--	---	--

There are 100 trillion microbes in your gut – ten times more than all the cells in your body – making your gut central to your health and happiness. Bio-Live Breathease is designed to deliver and maintain the balance of beneficial microbes within the human body.
